

Follow-Up Care for Children Prescribed ADHD Medication (ADD-E)

Measure evaluates the percentage of children aged 6-12 years with a newly prescribed attention-deficit/hyperactivity disorder (ADHD) medication who had at least three follow-up care visits within a 10-month period. Two rates are reported:

- 1. Initiation Phase:** The percentage of members 6–12 years of age with an ambulatory prescription dispensed for ADHD medication, who had one follow-up visit with a practitioner with prescribing authority during the 30-day Initiation Phase.
- 2. Continuation and Maintenance (C&M) Phase:** The percentage of members 6–12 years of age with an ambulatory prescription dispensed for ADHD medication, who remained on the medication for at least 210 days AND who, in addition to the visit in the Initiation Phase, had at least two follow-up visits with a practitioner within 270 days (9 months) after the Initiation Phase ended.

A member may not be compliant for the continuation phase without first being compliant for the initiation phase.

ADHD Medications

Description	Prescription
CNS stimulants	Dexmethylphenidate, Dextroamphetamine, Lisdexamphetamine, Methylphenidate, Methamphetamine
Alpha-2 receptor agonists	Clonidine, Guanfacine
Selective norepinephrine reuptake inhibitors	Atomoxetine, Viloxazine

Best Practices:

- Utilize reminder calls or texts before appointments and after missed appointments to reschedule.
- Schedule appointments in advance or at the end of each appointment.
- Coordinate care between behavioral health providers, primary care physicians, and schools.
- Consider telemedicine appointments if in-person visits are not available.
- Maintain appointment availability for members with ADHD diagnosis.
- Only the Initiation Phase visit must be with a prescribing practitioner.
- Utilize the Driscoll Care Dashboard to monitor progress.

Additional Resources:

- Behavioral Health Case Management
- Clinical Guidelines
- Behavioral Health Screening Tools
- Provider Incentive for ADHD Assessment
- Non-Emergency Medical Transportation (NEMT) through SafeRide Health is available to Driscoll Health Plan members 24 hours a day, 7 days a week, at no cost.
- Driscoll Health Plan Behavioral Health Hotline is available to Driscoll Health Plan members 24 hours a day, 7 days a week, at no cost.
