

Driscoll Health Plan is dedicated to providing expert care, education, outreach, and advocacy, particularly for children in our communities who are at higher risk, including those with disabilities and enrolled in Medicaid.

Driscoll Health Plan reimburses Providers for Oral Evaluations and Fluoride Varnish applications for members aged 6–35 months. Providers are encouraged to use correct coding to enhance the capture of carve-outs and ensure proper reimbursement for services rendered.

Are you eligible to bill for Oral Evaluation and Fluoride Varnish application?

- Are you enrolled in Texas Medicaid and Texas Health Steps?
- Have you completed the Oral Evaluation and Fluoride Varnish training and obtained a CE training certificate?
- Have you completed an Oral Evaluation and Fluoride Varnish (OEFV) certification application?
- Have you submitted the OEFV Certification Application and CE Training Certificate to THStepsOEFV.FDH@hhsc.state.tx.us or faxed it to 512-483-3979?

Start the certification process here:

<https://www.txhealthsteps.com/695-oral-evaluation-and-fluoride-varnish>

Once certified, submit a change request to DHPContracting@dchstx.org to add and update your Provider Directory listing.

Dr. Carmen Martinez, Associate Dental Director at Driscoll Health Plan, has created a toolkit that includes downloadable materials, interactive tools, and resources.

Caries Risk Assessment (CRA) Form: Fillable form to assess risk and create an action plan.

Steps to Become an OEFV Provider: Document outlining certification steps and requirements.

Why become OEFV certified: PDF overview of benefits for providers and patients.

OEFV Visit Documentation Form: Fillable form to document OEFV and dental referrals.

Smiles for Life Course: Course on early childhood caries.
